

TOWNSHIP OF SPRING POLICE DEPARTMENT 2010 ANNUAL REPORT

I am pleased to present the Township of Spring Police Department Annual Report, for the calendar year of 2010, to the citizens of Spring Township. The report contains statistical facts about crime and criminal activities, and other areas in which the police department serves your community.

I truly hope you find this information in a form that is both useful and informative to the citizens of the Township of Spring. Copies of the complete document are available for public inspection and review at the police administrative office during business hours. This document will also be available on the Township's website at www.springtwpberks.org.

The changes and improvements at the Police Department continued into the year 2010.

The Department added a second K-9 team in 2010 and the team completed their training and certification in the Spring of 2010. Officer Charles Miller and his partner, Gaspar, form our second team which now gives the Department K-9 coverage 7 days a week. The K-9 program has been very successful with multiple drug finds and suspect captures during the year. The K-9 program has also become a terrific public relations tool for the department, making several appearances for various community groups throughout the township.

The Township of Spring Police Department continues its quest for funding to benefit the community through specialized law enforcement services that would not otherwise be possible with existing resources. Approximately \$135,000 were obtained through grants and other outside funding in 2010 to support programs such as specialized narcotics investigations, K-9, School Resource Officer, DUI prevention and enforcement, alcoholic beverage control, crime prevention programs, seat belt enforcement and traffic safety.

This year we were confronted with the same economic challenges that police departments and emergency services nationwide have experienced. We have worked very hard securing our community without disrupting services while at the same time working with the township administration to keep our budget in line. We will continue to do the same for the years to come by operating our department as efficiently and competently as possible.

On behalf of the officers of the Township of Spring Police Department, I would like to offer my sincere thanks to you, our citizens, for your confidence in our ability to serve this community. With your continued support and assistance, we look forward to continuing to improve upon our citizen's quality of life and to work diligently toward the reduction of crime in our community.

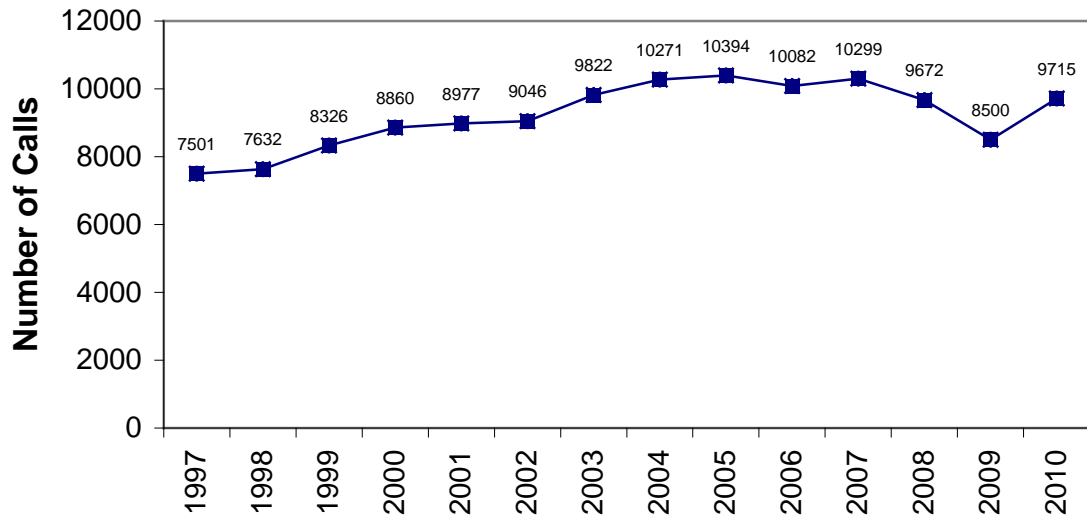

Regards,

*Bryan D. Ross
Chief of Police*

SUMMARY
OF
POLICE SERVICES

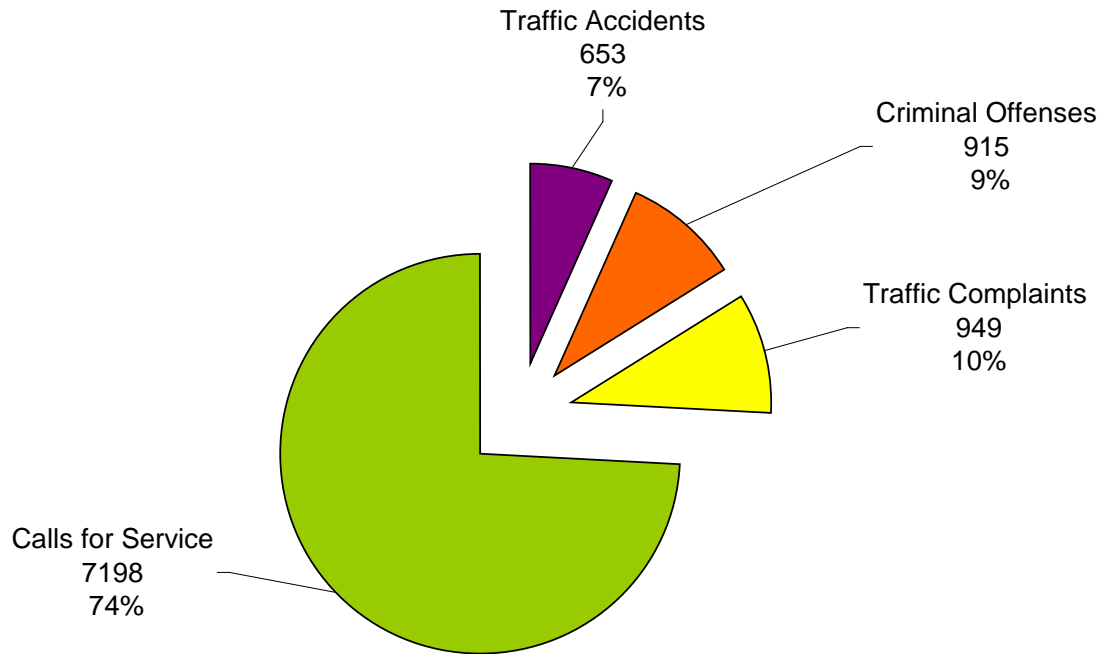

SUMMARY OF POLICE SERVICES

CALL VOLUME 1997-2010

In 2010 call volume increased overall by approximately 14% over 2009 figures. This is in contrast to other large police agencies in Berks County where call volume shows a decrease. The increases in overall calls for service and traffic complaints are the main reasons for the increases.

2010 Summary of Calls

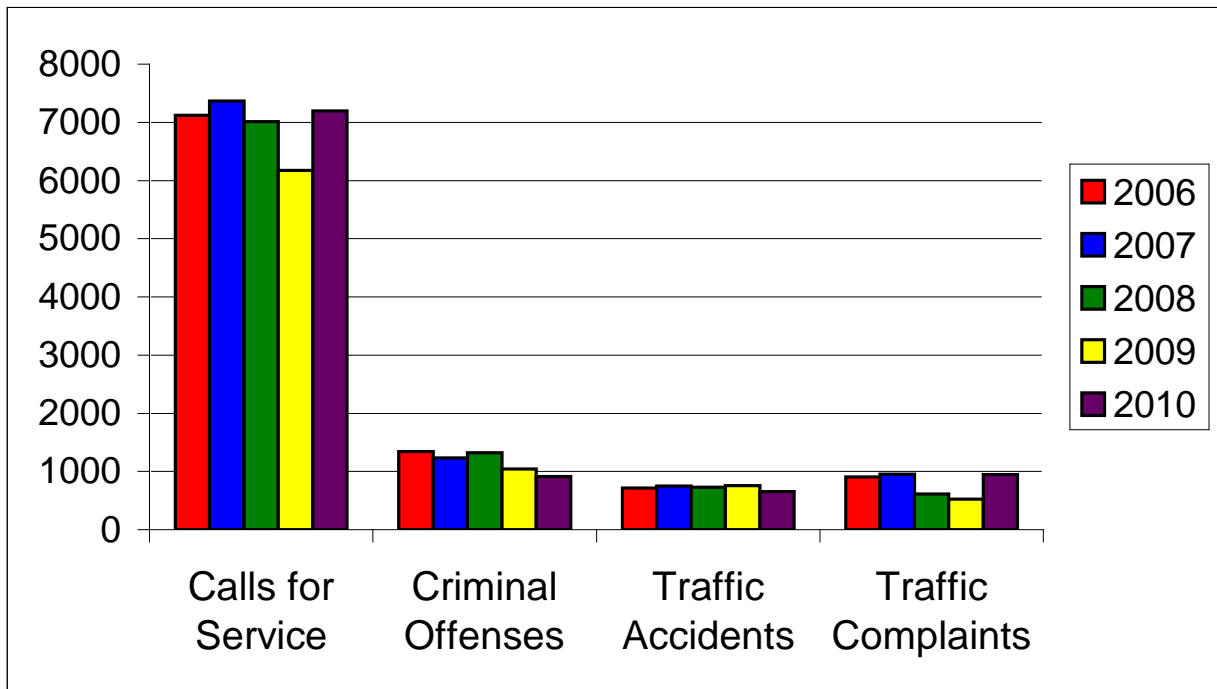

The average response time for calls dispatched in 2010 was approximately 4.5 minutes from the time the call was dispatched to the time an officer arrived at the location of the incident.

In 2010, the Township of Spring Police Department was the second busiest police department in the county outside of the City of Reading. The following is the call volume of the five busiest municipalities based on calls dispatched by the Berks County Communication Center:

MUNICIPALITY	2009 CALL TOTAL	2010 CALL TOTAL	DIFFERENCE
Muhlenberg Twp.	16,059	15,497	(562)
Spring Twp.	12,020	13,605	1585
Cumru Twp.	13,121	11,327	(1794)
Exeter Twp.	12,279	10,463	(1816)
Amity Twp	N/A	7,586	N/A

In 2010, the police department handled the following total number of calls:

	<u>2006</u>	<u>2007</u>	<u>2008</u>	<u>2009</u>	<u>2010</u>	<u>Difference</u>
Calls for Service	7118	7367	7009	6175	7198	1023
Criminal Offenses	1341	1231	1321	1040	915	(125)
Traffic Accidents	717	747	726	758	653	(105)
Traffic Complaints	906	954	616	527	949	422
Total	10082	10299	9672	8500	9715	1215

OTHER AGENCY ASSISTANCE:

Again in 2010, the Spring Township Police Department continued to have outstanding relationships with our neighboring police departments. There is a great deal of information sharing and cooperation between all of the law enforcement agencies in Berks County, but we especially appreciate the assistance we receive from those whose borders we share. This collaborative effort makes all of us more effective law enforcers. During 2010 we assisted our neighbors 266 times. In return, they assisted us 154 times.

Municipality	Assists to Spring Twp.	Assists by Spring Twp.
Wyomissing Borough	27	64
Sinking Spring Borough	54	113
Lower Heidelberg Township	11	11
South Heidelberg Township	10	22
Bern Township	18	17
Cumru Township	34	39
Total	154	266

Note: Statistics from Brecknock Township were unavailable. Spring Township assisted them 7 times in 2010.

SUMMARY OF CALLS:

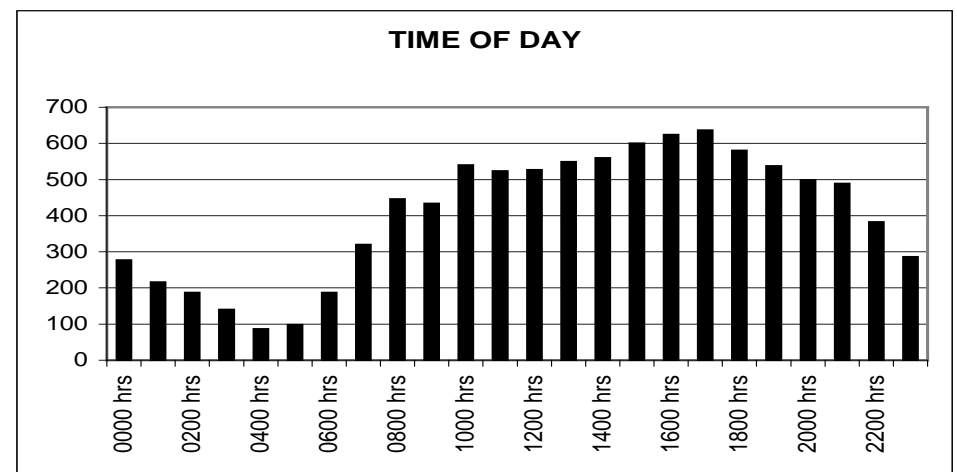

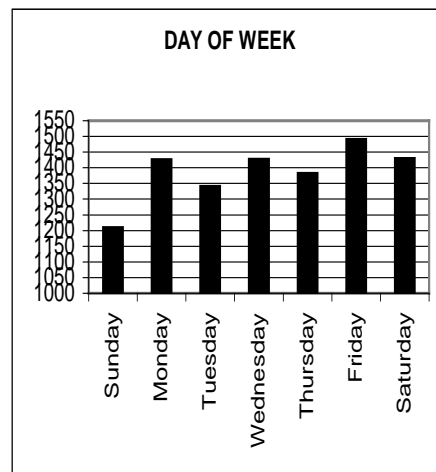

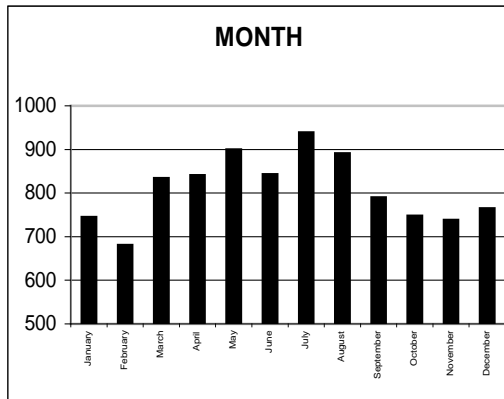

The following tables and charts analyze our calls by month, day, hour, type, officer and location. It is always interesting to note the consistency in the pattern our calls follow.

Township of Spring Summary of Calls

2010 Top Ten Highest Call Locations

COMMUNITY RELATIONS:

The year 2010 was a busy one for the community relations unit. The community relations unit participated in 28 events throughout the year. The events included Kid ID card programs, public speaking engagements, K-9 demonstrations, National Night Out and numerous tours of the police station.

The unit conducted 5 Kid ID card programs throughout the year. Kid Card programs were held at Fulton Bank, Lowe's, Sears, the Berks County Autism Walk and National Night Out. Over 400 Kid ID cards were made during the events.

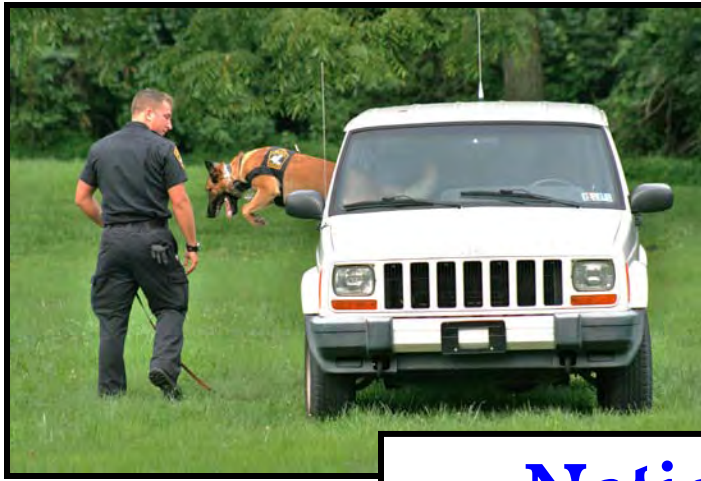

Eight tours of the police station were given to area Cub Scout and Girl Scout Daisy troops. During the tours, over 150 children and parents participated. The tours of the building were made more interesting for the children with the completion of the police building renovations. Five of the eight tours were given in November, so a majority of the participants were able to tour our new facility.

The addition of the K-9 unit in late 2009, with the addition of a second dog in 2010, added a new opportunity for the community relations unit. The department conducted four K-9 demonstrations during the year. Demonstrations were held at the West Lawn United Methodist Church Peach Festival, the Spring Township Fall Festival, the Spring Township Seniors Club meeting and at our National Night Out Event. The demonstrations were all well attended and well received by those in attendance. The residents really enjoyed getting to meet the dogs and the dog handlers and there were many opportunities to ask questions about the dogs and their capabilities.

Officers also participated in numerous public appearances throughout the year. Officers participated in the Berks Encore Touch a Truck program at Penn State Berks Campus. Sgt. Marchut participated in the Wilson Communities That Care mock DUI trial at the Wilson Sr. High School. He played the role of the arresting officer during the mock trial, which included members of the Berks County DA's Office, District Justice Ann Young and a Berks County Court of Common Pleas Judge. Bike Patrol officers participated in the Berks County Park Department Bike Rodeo at Grings Mill Park. Officers also participated in a career day at a local middle school, the Spring Twp. Lion's Club Halloween Parade and the DEA Prescription Drug Take Back Program at Ronco's Pharmacy.

Officers from the community relations unit engaged in a variety of speaking programs throughout the township. Some officers spoke to a group of playground students about bullying after problems arose at one of the playground summer programs, other officers spoke about safety at two local day care centers. Officer Keiser participated in a children's reading program at the Kinder Care in Spring Township.

The highlight of the year for the community relations unit was our annual National Night Out event. An estimated 1,000 people attended the event which was again held at the Lincoln Park Swimming Pool. The night was highlighted by a K-9 demonstration conducted by our K-9 unit. As in years past, food and refreshments were provided throughout the night. The department gave out over 700 hotdogs, 100 pizzas, numerous bags of snacks and over 1500 drinks. There were over 30 community organizations in attendance and we were once again honored to have Congressman Jim Gerlach attend the event. The night concluded with our annual raffle. Through our NNO effort, we were able to donate \$1,000.00 each to Crime Alert Berks County, Wilson Communities That Care and the Scott Wertz Memorial Scholarship Fund.

National Night Out 2010

CITIZEN'S POLICE ACADEMY

In September of 2010 the annual Citizen's Police Academy was held for the second year. It was a joint effort with Wyomissing Borough, West Reading Borough, and the Township of Spring Police Departments. The program was coordinated by Sergeant Tom Endy of Wyomissing, Sergeant Keith Phillips of West Reading and Sergeant James Lake of Spring Township. This year there were 17 participants gathered from all three municipalities.

The classes were held at the West Reading Fire Department, Wyomissing Police Department, Wyomissing Fire Department and Judge Dougherty's District Court in West Reading. The finale, graduation, was held at the newly renovated Township of Spring Police Department.

Each participant was provided with leather covered notebooks with all three Department's logos and patches embedded on the front of the book and also tee shirts with "Citizens Police Academy" printed on it along with all three department's patches. Each class was held on a Tuesday evening from 1800 hours to 2100 hours with pretzels and refreshments provided.

Officers from each department presented each week on a wide variety of topics. Presentations were also made by a district judge, a state constable, and emergency dispatchers. Some of the topics covered were: traffic enforcement; DUI enforcement; accident investigation; narcotics; criminal investigations; the court system; roles of constables; bike patrol; K-9's; general patrol; services trucks; and evidence technicians, as well as other topics.

There was a large amount of class participation each every week. There appeared to be a large amount of interest in all topics with many questions from the class that each presenter answered very knowledgeably and professionally.

The feedback from the participants was very positive again this year, as it was from 2009. Every person that attended, citizens as well as presenters, had nothing but good things to say about the experience they had while attending the Citizen's Police Academy.

SUMMARY
OF
CRIMINAL ACTIVITY

CRIMINAL INVESTIGATIONS DIVISION

The Criminal Investigation Division (CID) had the following officers assigned to it in 2010:

Lt. Ritchey Troutman	Detective Stephen Brock
Detective Dennis Riegel	Detective Matthew Hlavac
Detective Robert Long	School Resource Officer James Surgeoner

CRIMINAL CASES:

The following is a break down of reported criminal activity within the Township from 2009 to 2010:

<u>TYPE OF CRIME</u>	<u>NUMBER IN 2009</u>	<u>NUMBER IN 2010</u>
Burglary	45	40
Robbery	6	1
Rape	0	1
Theft	280	290
Vehicle Theft	15	16
Fraud (Forgery, ID Theft, Etc.)	116	99
Sex Offenses	6	7
Drug Offenses	91	104
Death Investigations	25	21
Homicides	2	0
Kidnapping	1	0
Assault	23	31
Arson	2	4

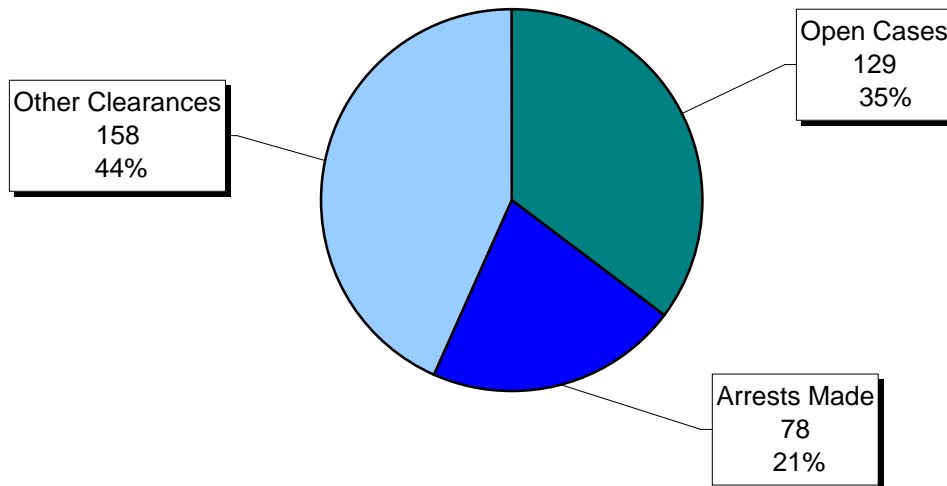

o NOTE: These statistics were obtained from the Department's report system, CODY.

Not every crime listed above was investigated by the CID; some of the crimes reported were handled by Patrol Officers. The CID reviews the reports generated by the Patrol Division and handles those matters that are not easily resolved.

In 2010 approximately 365 cases were assigned to members of the CID. Of these cases, 78 resulted in an arrest (21%). An additional 158 cases were cleared by other means (43%). This resulted in 65% of all cases that were assigned to a detective being cleared by arrest or other means.

NOTE: *A case cleared by other means can be as a result of the case being turned back over to the patrol officer to file charges, the matter was referred for civil action, the matter was referred to another agency (another police department, federal authorities, etc.), the matter was unfounded, the matter was handled outside an arrest, etc.*

**CASES ASSIGNED TO CID IN 2010
(365 TOTAL CASES)**

The detectives handled various types of cases in 2010 as is evident by the statistics listed above. Some of the highlights for 2010 were as follows:

- Detective Riegel handled a fraud case involving a dental practice in which an employee forged checks and committed other irregular accounting practices. The loss to the business is approximately \$114,000.00. Detective Riegel filed charges against the former employee.
- Officers were called for a domestic type assault that took place in the 1800 block of Portland Ave. involving a gun. A female indicated that the male actor threatened her with the gun before she was able to flee the residence in her vehicle. The male actor chased after the female and they were eventually stopped on Lancaster Ave. in Cumru Township. Search warrants were obtained and served by members of the C.I.D. on the male's vehicle and his residence. Traces of narcotics were found in the residence and a loaded handgun was located in the vehicle. Detectives charged the male with various firearm and assault charges.
- Detective Hlavac investigated a burglary that occurred in the 100 block of Bradley Ave. while the homeowner was away in a foreign country. In the course of the investigation, Det. Hlavac learned that a 14 year old friend of the homeowner's son may have been involved. Through interviews, Det. Hlavac was able to obtain a confession from the juvenile and learn who else was involved. It should be noted that in addition to this burglary, a total of six (6) other reported crimes were solved (theft from vehicles, vandalism, etc.) which resulted in the filing of juvenile petitions against six (6) 14 year old juveniles.

- Detective Hlavac worked on a multi-state credit card theft/fraud ring in which two suspects were initially identified with one suspect being identified through an AFIS hit (Automated Fingerprint Identification System) on a partial print recovered from the victim's purse. Det. Hlavac worked with Trooper Hess of the PA State Police, Reading barrack and other detectives on the matter. Both investigators used the resources of MAGLOCLLEN (Mid-Atlantic Great Lakes Organized Crime Law Enforcement Network) to publish information on the ring in MAGLOCLLEN's April edition of the Network and sponsored a regional meeting at MAGLOCLLEN's headquarters in Newtown, PA that was attended by numerous agencies in multiple states. As a result of the meeting, additional actors were identified, possible locations where the merchandise purchased with stolen credit cards was sold have been identified, and the Secret Service has agreed to get involved in the investigation. The ring operated throughout the east coast and the estimated amount of fraud committed is believed to be several hundred thousand dollars.
- Detectives Long and Brock handled an incident at Wilson Southern Jr. High School which resulted in a referral to JPO on weapons related charges. A juvenile brought several weapons into the school and informed other students about it. The school received information about this incident the day after it occurred from some of the students. The juvenile admitted to school officials and detectives what he had done and the weapons were seized after consent was obtained from the parents.
- Detective Hlavac investigated a report of a burglary in the 1900 block of Old Lancaster Pike in which the "actor" was alleged to have stolen all the cooper piping in the house. Through investigation, it was learned the person responsible for taking the copper was the person reporting the "burglary"—the resident—who took the cooper to a local scrap metal dealer. Charges were filed against the resident for filing a false report.
- A burglary was reported at 2808 Van Reed Rd. which involved the theft of a large amount of jewelry and other items from the residence while the homeowners were on vacation. A check of pawn shop lists revealed a resident on Dwight St. had been selling jewelry on a regular basis to a business in Hamburg. Detectives had the victim go to the Hamburg business to see if any jewelry taken from the victim's residence was at this location; the victim went to the business and was able to identify several pieces of jewelry as being hers. It was learned through the investigation that the Pennsylvania State Police and Departments in the northern part of Berks County and areas in Schuylkill County were looking at the same individuals for a number of burglaries. The C.I.D. did surveillance of the individuals and built enough probable cause to obtain a search warrant for the residence. A number of stolen items were recovered and two individuals were charged with the burglary of the Van Reed Rd. residence. Additional charges by other agencies were filed against the same two actors.
- Members of the C.I.D. along with officers in the Patrol Division conducted two warrant service round-ups. Various scofflaw and criminal type warrants were attempted to be served or were served at a number of residences in the Township. The Berks County Sheriff's Department and US Marshalls assisted in the round-ups.

- Detectives were called to the 3000 block of Grandview Blvd. for two elderly individuals found deceased in separate bedrooms inside the residence. The investigation revealed a vehicle parked in the garage attached to the house was left running and the individuals succumbed to carbon monoxide inhalation. Detectives worked with the Berks County Coroner's Office in trying to determine if the deaths were accidental or murder/suicide. After an extensive investigation, there was not enough evidence for the coroner's office or this Department to rule the deaths a murder/suicide so the cause of death for both individuals was ruled to be accidental.
- Detective Riegel investigated a check fraud involving IHOP restaurant in which the business' payroll account number was used to make numerous fictitious payroll checks. Four individuals were identified and charged with theft and related offenses in connection with the scheme. The investigation revealed that the actors had compromised other business accounts as well in other counties; the actors face additional charges in those jurisdictions as well.
- Detective Riegel investigated a fraud in which the actor stayed at the Homewood Suites Motel for an extended period of time after claiming his residence was damaged in a fire and the insurance company would be paying the bill. The bill for the stay (and other amenities) was approximately \$4,000.00. The actor was charged with theft and related offenses after it was learned there was no fire and the bill was not paid by the actor.
- A burglary was reported to the Department in the 3800 block of Wyoming Dr. South. Taken in the burglary were various items including a number of firearms. Through the cooperation of an informant, Det. Brock was able to piece together the individuals involved in the burglary, an adult who took possession of some of the firearms knowing they were stolen, and an additional juvenile who obtained the additional firearms. A number of adult and juvenile arrests were made in the case.
- On November 12, 2010 the Spring Township Fire Company and Police Department responded to 809 Carmen Drive for a structure fire. After verifying with the homeowners that no one else was inside the burning structure, Patrol officers were told by the male resident that he had been assaulted by two individuals on his back deck area and his house was set on fire. Officer Mark Williams, who has received training in fire investigations, and State Police Fire Marshall Tpr. Mike Yeity responded and determined the cause of the fire was arson. The Detective Division, Officer Williams, and State Police are conducting a joint investigation into the arson.

NARCOTIC INVESTIGATIONS:

In 2010 Detective Stephen Brock continued to work narcotics investigations as his primary duty. In addition, three (3) officers assisted Detective Brock in investigations as needed—Officer Robert Johnson, Sgt. Barry Marchut, and Sgt. James Lake.

In December 2008 District Attorney John Adams formed a County Drug Task Force and requested two officers from each Department to act as the liaisons with County Detectives. Detective Brock and Officer Robert Johnson were selected for this assignment. The County has provided funds for overtime costs, equipment purchases, buy money, etc. to assist with narcotics investigations.

A number of cases that originated in Spring Township have crossed our jurisdictional boundary into other municipalities. Detective Brock and others have assisted other Departments, County Detectives, and the Pennsylvania State Police in working these cases.

While narcotics cases are his primary investigative assignment, Detective Brock has worked other types of cases (e.g. burglary, theft, etc.). One of the benefits of having a detective handling narcotics is the information that can be developed leading to the closure of other cases and arrests that can be made. To illustrate this point, the following is the breakdown of cases handled, arrests made, and seizures made by Det. Brock in 2010:

Drug or Narcotics Information:	95
Weapons Offenses:	4
Burglary:	3
Theft:	4
Aggravated Assault:	2
Death Investigation:	2
Assist Other Agency or Officers:	47
Warrant / Scofflaw Services:	53
Graffiti:	9
Other:	3
TOTAL CASES / INCIDENTS HANDLED:	222

Of the above 222 incidents in which Detective Brock was the lead investigator, he made 83 arrests, 47 of which were felony arrests. An additional 28 arrests were made by other Spring Township officers or other law enforcement agencies. A total of 13 search warrants were executed.

The following is a summary of what was seized as a result of the narcotics investigations:

Marijuana:	3,255 grams valued at \$64,490
Cocaine:	126 grams valued at \$7,548
Heroin:	102 bags valued at \$3,690
Ecstasy (MDMA):	130 pills valued at \$2,600
Other:	3,172 prescription pills at \$31,720
Cash:	\$10,903 in suspected drug proceeds
Vehicles:	5 vehicles valued at \$17,000
Weapons:	8 including a sawed off shotgun and 5 stolen handguns

The Narcotics Unit handled various types of cases in 2010 as is evident by the statistics listed above. Some of the highlights for 2010 were as follows:

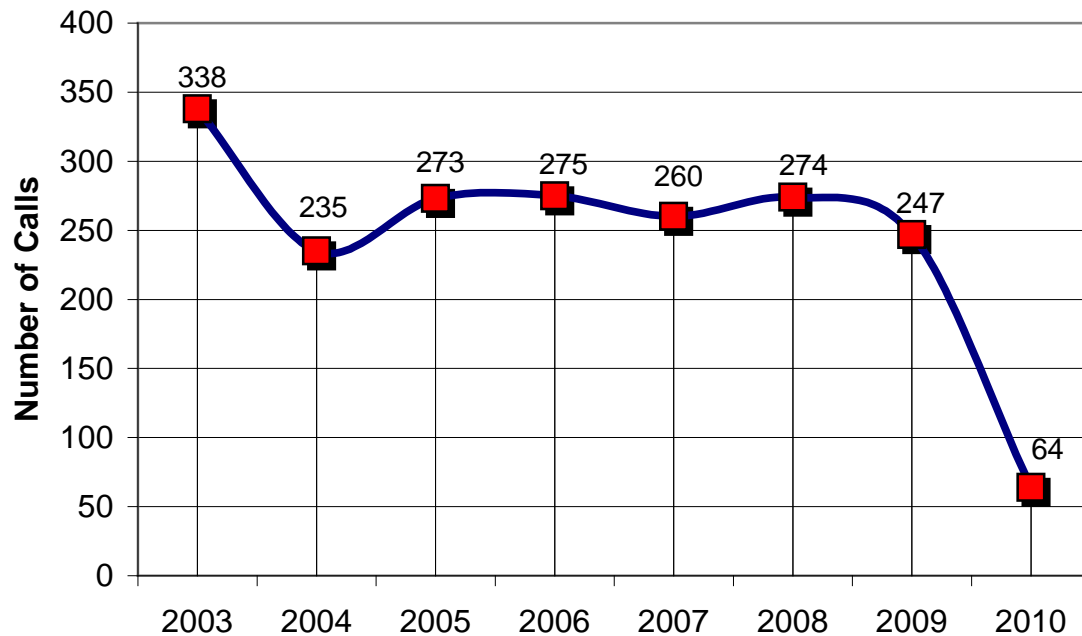

- Detective Brock, while working in an undercover capacity, directly purchased cocaine, heroin, marijuana, MDMA, and illegal prescription pills from drug suspects.
- Conducted an undercover operation into illegal MDMA (ecstasy) sales. Made 3 undercover purchases for a total of 100 pills. Suspect arrested on multiple drug charges.
- Conducted an undercover operation into large scale marijuana dealers in the area. Made 4 undercover purchases from 2 suspects, the last of which was for 3 lbs of marijuana. 2 suspects arrested on multiple drug offenses and a total of 4 lbs of marijuana and a vehicle were seized.
- Conducted a drug investigation into marijuana sales at a residence directly across the street from Wilson High School. After conducting purchases, a search warrant was executed and the suspect was arrested after we seized approximately 2 lbs of marijuana from the residence.
- Conducted an undercover heroin purchase from a suspect in the area. An arrest warrant was signed and while attempting to execute it, the suspect refused to open the front door. Eventually, we were able to gain entry and after executing a search warrant on the residence, we located a handgun and a sawed off shotgun in the residence which the suspect was additionally charged with.
- Conducted 4 undercover cocaine purchases in the area from 3 different suspects who were working together. During one of the buys, the suspect held a sharpened screwdriver at Det. Brock and demanded that he give him more money repeatedly. After approximately 5 tense minutes, Det. Brock was able to get the suspect out of his vehicle and leave without any further harm occurring to himself or the suspect. At the conclusion of the investigation, a search warrant was executed and 3 suspects were arrested for multiple offenses. Total seizures were 53 grams of cocaine and 28 grams of marijuana.

- Conducted 2 undercover purchases of marijuana from a suspect for a total of 130 grams of marijuana. Suspect arrested and charged with multiple offenses.
- Conducted an investigation into a residence where the suspects were selling cocaine to people in the area. After executing a search warrant, we recovered 25 grams of cocaine and 2 suspects were arrested.
- Investigated a prescription fraud case where a former employee had stolen a prescription pad from the doctor, wrote and filled multiple narcotic prescriptions in her name. Suspect was able to be linked to the acquisition of over 2,000 illegally obtained pills and confessed that they were selling them to make extra money.
- Assigned to work a nearly month long "wiretap" investigation into a large scale drug trafficking ring that was operating throughout Reading and Berks County. Multiple agencies participated including the Berks County Drug Task Force, PSP-Vice, Reading Vice, and the DEA. Full time audio monitoring of 3 cellular phones and physical surveillance was conducted as well as undercover purchases of narcotics. As a result, multiple search warrants were executed and 8 suspects were arrested. Total seizures during that case were approximately 2 lbs of cocaine, 5 lbs of marijuana, 1 lb of methamphetamine, \$92,000 cash, 8 cars, and 4 handguns.
- Investigated a prescription fraud case where the suspect was printing phony prescriptions on his computer and filling them for his own personal use as well as selling them to others. It was estimated that as many as 100 fraudulent narcotics prescriptions had been filled. Was able to link 9 to the suspect in Spring Twp for a total of 1,105 pills. Suspect charged with 45 criminal offenses.
- Conducted a buy / bust operation for MDMA pills in our area. Two suspects arrived to deliver MDMA to a confidential source and were stopped by our officers. One of the suspects attempted to destroy the evidence by trying to swallow all the drugs. We were able to prevent him from doing so, and recovered 20 MDMA pills and 5 grams of crushed MDMA. The suspects were arrested on multiple charges

SCHOOL RESOURCE OFFICER:

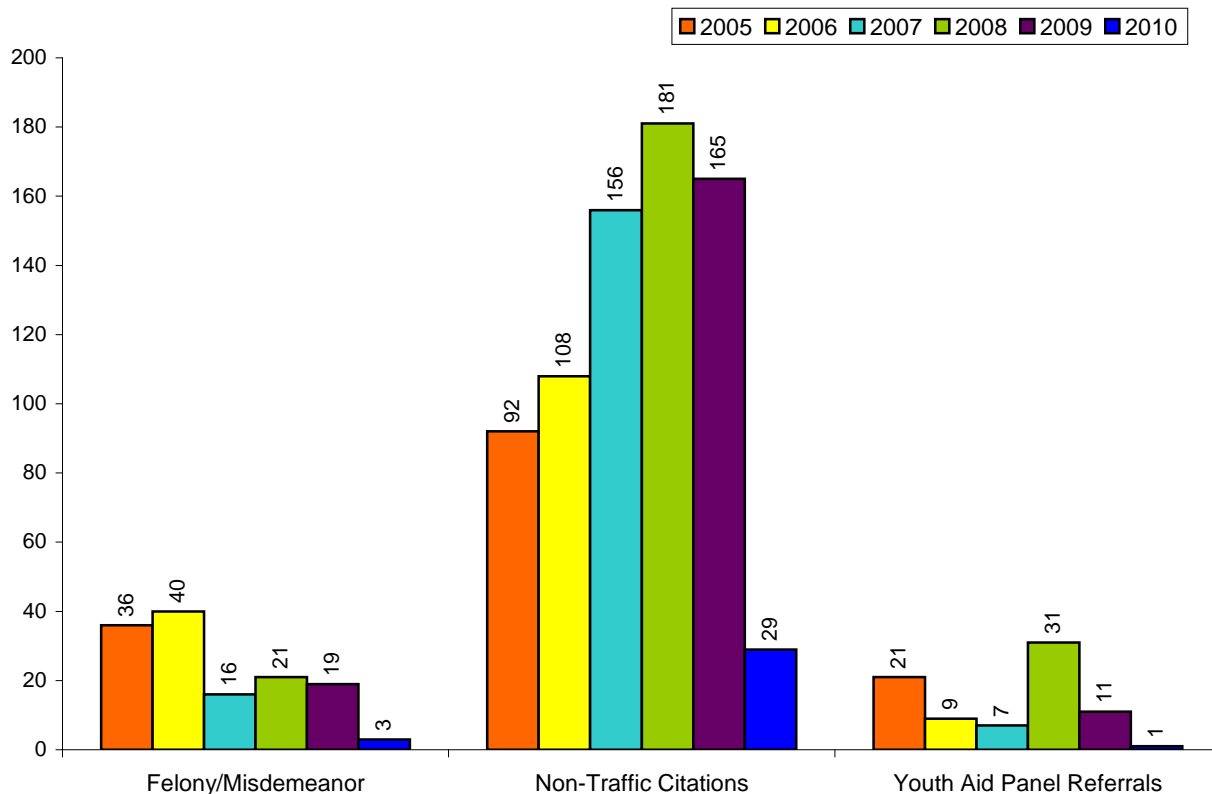

Officer Surgeoner continued as the School Resource Officer in 2010. He is the primary officer that handles arrests / referrals for juveniles that commit criminal offenses in Spring Township and serves as a liaison between the police department and the school district. In 2010 Officer Surgeoner was on extended sick leave from January 28th through July 13th. As a result, the number of calls for service and arrests made for the year are lower than in any of the previous years the School Resource Officer program has been in existence.

The following charts show the number of calls for service that Officer Surgeoner handled from 2003 through 2010 and a break down in the types of calls handled by year:

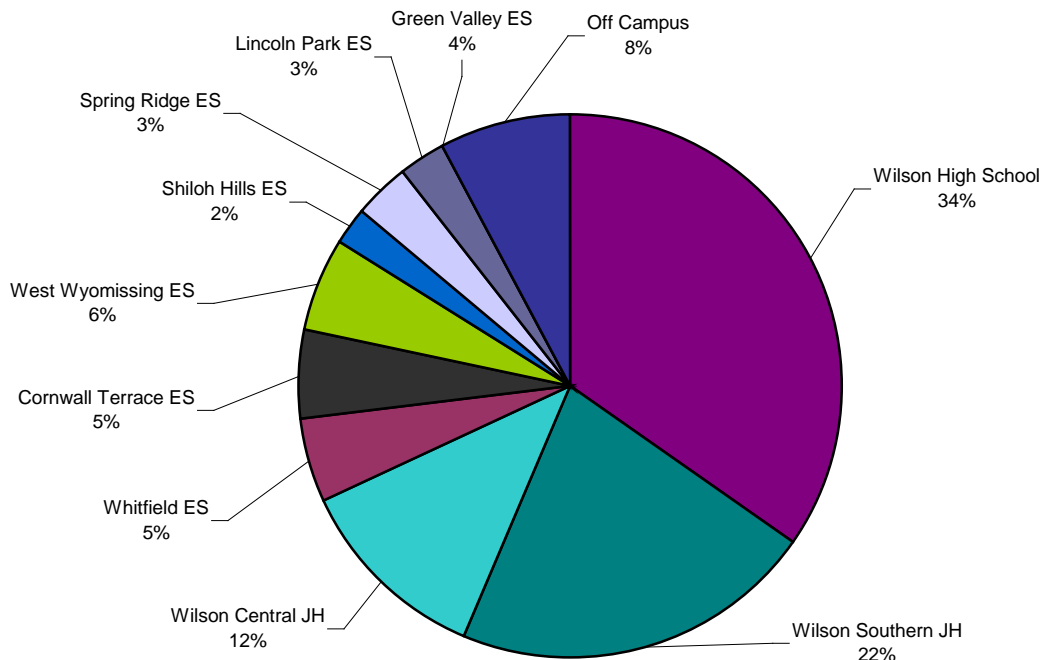

CALLS FOR SERVICE	2003	2004	2005	2006	2007	2008	2009	2010
Assault	12	1	6	7	2	3	6	2
Burglary	0	0	4	0	0	0	0	0
Theft	40	20	30	28	9	10	15	3
Vandalism	15	9	2	9	4	3	3	1
Weapons Offenses	9	3	3	2	1	2	2	0
Drugs	7	8	5	7	4	3	2	0
Disorderly Conduct	49	34	16	25	23	18	15	2
Harassment	20	25	22	12	7	7	14	3
Trespassing	5	1	0	1	0	2	2	0
Found/Lost Property	0	1	2	2	0	1	0	1
Domestic	1	0	0	0	0	0	0	1
Accident	4	3	2	0	0	2	1	2
Terroristic Threats	1	7	3	2	2	1	2	0
Truancy	45	33	37	51	113	146	135	26
Tobacco	10	9	8	10	5	5	6	0
Parking Complaints	15	19	12	12	8	4	0	1
Classroom Presentations	55	28	59	79	61	47	39	19
School Crossing	6	2	0	0	0	0	0	0
Liquor Violation	1	1	1	1	2	1	0	1
Stolen Vehicle	2	0	0	0	0	0	0	0
Forgery	2	0	0	1	0	1	0	0
All Others	39	31	61	26	19	18	5	2
Total	338	235	273	275	260	274	247	64

The following chart shows the enforcement activities of the School Resource Officer from 2004 through 2010. Again, with SRO Surgeoner being out on extended sick leave, the numbers are lower for 2010.

The following chart shows the percentage of calls for service by school location for 2010.

2010 Calls for Service by School

In addition to enforcement responsibilities, SRO Surgeoner gives classroom presentations. He meets monthly with several elementary school classes to present different topics each month. SRO Surgeoner gives a Vehicle Code presentation to the Driver's Education Class in the Senior High School. These classroom presentations have a secondary benefit of helping build rapport between the students and the police department.

EVIDENCE TECHNICIAN UNIT:

The Evidence Technician Unit of the C.I.D. consists of Sgt. Todd Peterson, Sgt. Bill Van Etten, PtIm. Louis Fronina, PtIm. Mark Williams, PtIm. Matthew Keiser, PtIm. Charles Miller, PtIm. Jarrod Schappell, & PtIm. Mark McCreary, PtIm. Cory Huntsinger, and PtIm. Nathan Getz. This unit performed crime scene investigations and evidence processing, in addition to patrol duties, during 2010.

In order to be an evidence technician, an officer must attend an evidence processing course. Some of these officers have attended multiple courses over their careers and can process various types of crime scenes.

Over the years, the Department has purchased various pieces of processing equipment and supplies in order to process different types of crime scenes. Processing of evidence can take place at the crime scene or in the Police Department's evidence processing room. In addition, various pieces of evidence processing equipment and supplies are on-board the Department's special services truck.

The Berks County District Attorney's Detective office has a forensic services unit which can assist this Department in crime scene processing and analyzing some types of evidence (e.g. Automated Fingerprint Identification System (AFIS) terminal). Whenever latent prints are developed by an evidence technician, the latent prints are sent to the forensic services unit for examination by the AFIS terminal. If a latent print is identified to an individual, an examiner analyzes the latent print against a rolled set of prints from the known individual.

Detective Riegel handled a case in 2010 that shows how the AFIS terminal and County forensic unit assists this Department with resolving cases. Detective Riegel filed charges on a female from Maryland after investigating a fraud at Harleysville National Bank. The female, who did not have an account with the bank, was required to give a thumb print on the check. Detective Riegel submitted the check to the Berks County AFIS unit and received a hit on the thumb print. In addition, surveillance photos were used to confirm the female's identity.

PROPERTY ROOM:

In 2010 the Property Room was expanded during the remodeling of the building. The property room is more than twice its original size. To help maximize the space, a moveable shelving system was installed in part of the room. A shelving system was created by members of the C.I.D. for the storage of various weapons the Department has seized. In addition, a chest type freezer and a refrigerator are located in the Property room for the storage of various types of evidence such as biological matter.

A computer terminal is installed within the Property Room enabling the property room custodians to log new evidence into our records management system, CODY. This records management system is used to track all items of property/evidence that come into the Department's possession. Each item is bar coded which allows the Department to conduct quicker, more thorough inspections/inventories of the property room.

ORGANIZATIONS:

The Criminal Investigations Division currently has membership in the following organizations which provide assistance in the numerous investigations conducted:

- International Association Financial Crimes Investigators (IAFCI)
- Mid-Atlantic Great Lakes Organized Crime Law Enforcement Network (MAGLOCLEN)
- International Association for Identification (IAI)
- International Association for Identification (IAI)-Pennsylvania Chapter
- Pennsylvania Narcotic Officers Association (PNOA)
- National White Collar Crime Center (NW3C)
- PA Drug Enforcement Coordinating System (PADECS)
- National Drug Intelligence Center (NDIC)

These organizations have proved valuable over the years with the training programs they provide and services that they offer.

ACCREDITATION

The Spring Township Police Department was accredited in March 2006 by the Pennsylvania Law Enforcement Accreditation Commission (PLEAC). The Commission describes the program as follows:

Accreditation is a progressive and time-proven way of helping institutions evaluate and improve their overall performance. The cornerstone of this strategy lies in the promulgation of standards containing a clear statement of professional objectives. Participating administrators then conduct a thorough analysis to determine how existing operations can be adapted to meet these objectives. When the procedures are in place, a team of independent professionals is assigned to verify that all applicable standards have been successfully implemented. The process culminates with a decision by an authoritative body that the institution is worthy of accreditation.

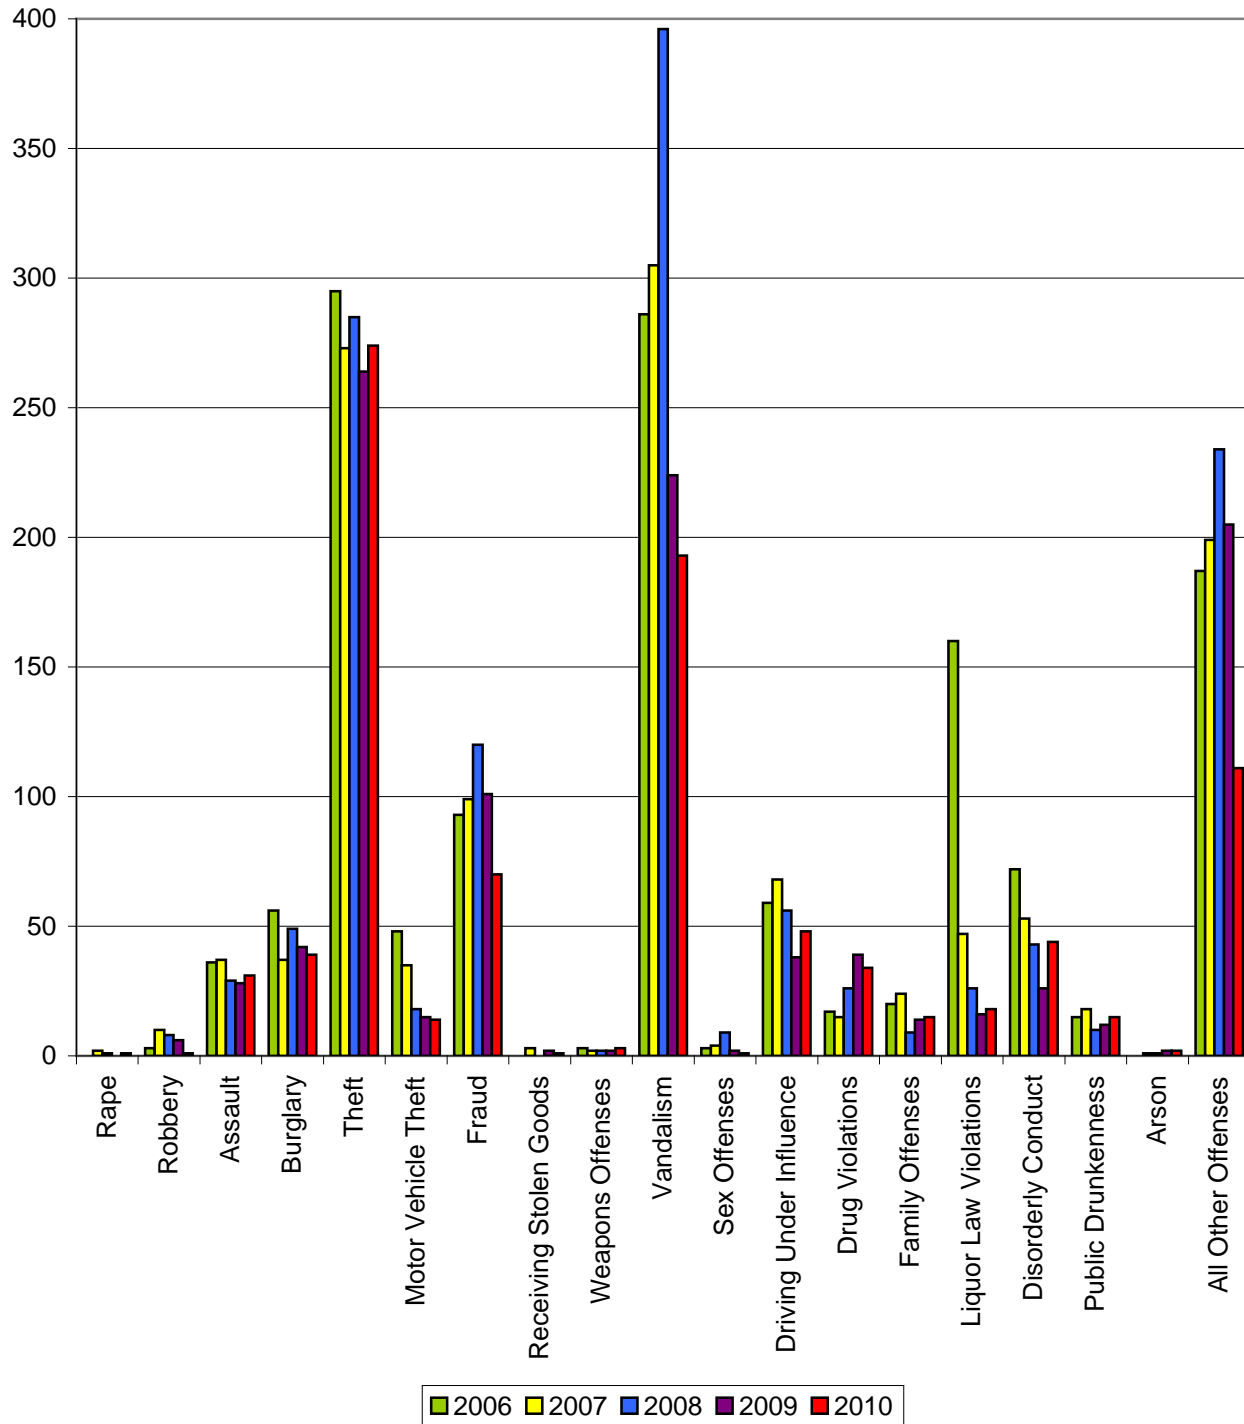

In order to maintain the accreditation status, Departments have to be re-accredited every three (3) years by the Commission. The accreditation program requires constant monitoring of the Department's policies and the Department's adherence to them. Accreditation requires a lot of man-hours to review, revise, and maintain the numerous policies and files showing that the Department is complying with the Commission's requirements.

The Department underwent its 3 year review by the Pennsylvania Law Enforcement Accreditation Commission (PLEAC) on February 2-3, 2009 and received its re-accreditation. The next assessment will be in early 2012.

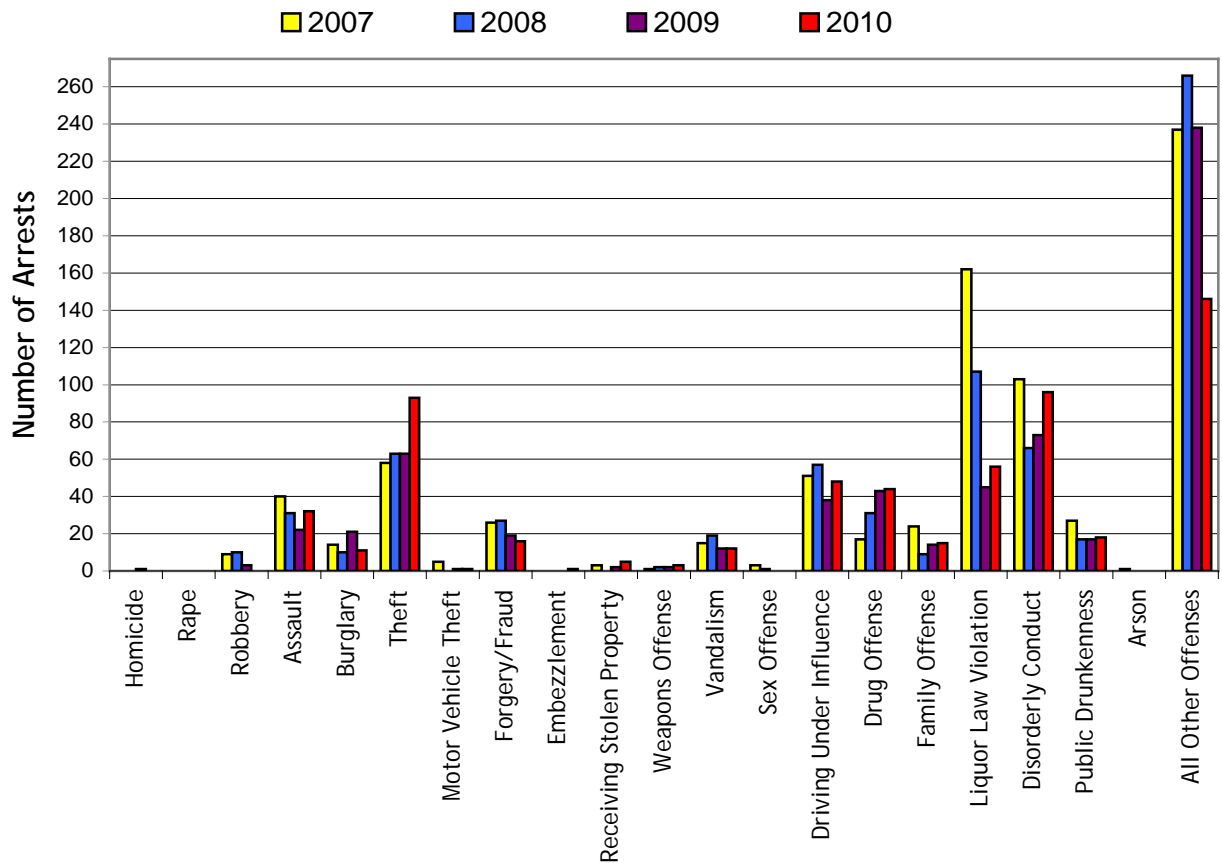

Lieutenants Shivers and Troutman are certified by PLEAC to conduct assessments of Departments wishing to be accredited by the Commission. In the past year, each lieutenant has conducted assessments for other Departments.

CRIME / ARREST

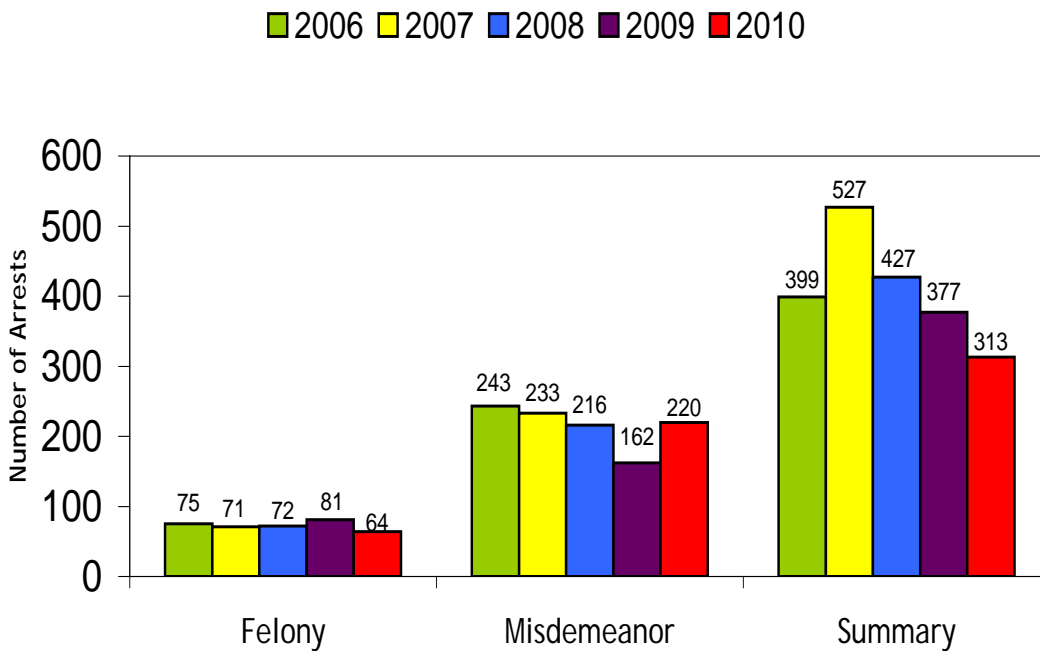

In 2010, there was a 12.6% percent decrease from 2009 in the overall number of crimes which were reported to the department.

Recovery Rate on Stolen Property for 2009: 22.53%

TRAFFIC ENFORCEMENT

The Police Department has created the Traffic Enforcement Unit to assist with keeping the roads as safe as possible. The Traffic Enforcement Unit is dedicated to promoting and improving traffic safety through education, analysis and enforcement. The year 2010 was the second year of operation for the Traffic Enforcement Unit. The Unit consists of three members: Sergeant Bill Van Etten is in charge of the Unit and Officers Louis Fronina and Mark McCreary are assigned to the Unit on a full-time basis.

TRAINING:

To become proficient with the latest information in order to best perform the duties in this specialized Unit, the Officers assigned to the Unit attended numerous training sessions. The courses that the Officers attended, and successfully completed, will allow them to provide expert testimony in investigations.

Some of the courses that the Officers completed were:

- **Commercial Motor Vehicle Interdiction**

This course provided officers training about commercial motor vehicle criminal interdiction, concealment techniques, and the necessary tools to conduct safe and successful asset forfeitures. The interdiction of contraband, including drugs, bulk currency, firearms, aliens and WMDs is one enforcement element directly related to success in disrupting criminal organizations.

- **Motor Carrier Safety Assistance Program (MCSAP)**

This training is specific to commercial motor vehicle inspections. The course provides for the following: Training to conduct vehicle and drivers inspections, US Federal Motor Carrier Safety Regulations, Out-of-Service criteria.

- **Advanced Roadside Impaired Driving Enforcement (ARIDE)**

This course is an advanced level of training for law enforcement officers to observe, identify and articulate the signs of impairment related to drugs, alcohol, or a combination of both, in order to reduce the number of impaired driving incidents as well as crashes which result in serious injuries and fatalities.

- **Motorcycle Collision Investigation**

This three-day program is designed for the experienced police officer, supervisor or traffic homicide investigator who wants to better understand the handling characteristics, design and speed factors affecting the reconstruction of motorcycle-involved collisions.

- **Child Passenger Safety Technician**

The child passenger safety technician certification course combines classroom instruction, hands-on work with car seats and vehicles, and a community safety seat checkup event, where students demonstrate proper use and installation of child restraints and safety belts and then teach these skills to parents.

EQUIPMENT:

The Traffic Enforcement Unit took possession of pieces of equipment to assist with traffic studies and safety measures. The Unit will deploy a Speed

Monitoring Radar Trailer in neighborhoods, school zones, construction zones and other locations to help promote compliance with the speed limit. The trailer is an unmanned, portable, self-contained speed display unit that is towed to the desired location. Once deployed, it displays speeds of oncoming vehicles on a highly visible LED display. A speed limit sign mounted on the unit reminds drivers of the speed limit. This unit also has the capability to record the speed data for future traffic problem analysis. The trailer gives drivers the opportunity to see how fast they are actually going and slow down, without receiving a citation.

Additionally, the Traffic Unit has invested in a Kustom Signals Stealth Stat. This small computer can be unobtrusively mounted on a pole to gather data on the frequency of traffic and speeds on any given road.

From the resulting report, officers can obtain details of the lowest and highest speeds that occurred during this time period, identify the average speed, and determine whether or not there is a higher preponderance of motorists traveling above the posted speed limit on any given street. This will allow them to identify the difference between actual and perceived speeding problems, and to focus their prevention efforts where they are most needed.

Traffic calming signs are also available through the Traffic Enforcement Unit. Citizens of the Township may contact the Unit and request the signs. Two different versions of the signs are available for loan through the Police Department.

The signs can be placed curbside as a reminder to motorists to check their speed and comply with the speed limit. The Unit will also soon be making these signs, or similar signs, available for purchase to the citizens of the Township.

SAFETY ISSUES:

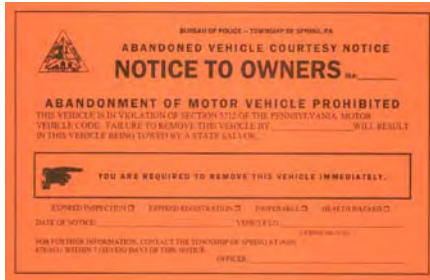

Numerous safety concerns and issues have already been addressed through the Traffic Enforcement Unit. Safety issues can be concerning line-of-sight distances, parking, road design, and high accident rates in certain areas.

Some areas of safety concerns that have been studied and addressed are:

- Morgan Drive, Frederick Street & West Wyomissing Blvd.
Parking concerns regarding commercial vehicles along the shoulders of these roadways have been studied and addressed. An Ordinance has been adopted forbidding commercial vehicles in excess of 25,000 pounds from parking on these roads. The regulatory signs have been ordered and should be erected on the roadways in the near future.

ABANDONED VEHICLES:

All vehicles that are parked on the streets within the Township must comply with the Pennsylvania Vehicle Code. Specifically, Section 3712, regulates that all vehicles parked upon the roads must have a current inspection, a current registration, and must be in a drivable condition.

When vehicles are found to be parked on the roadway in violation of the Vehicle Code, Officers will affix a warning notice on the windshield of the vehicle. The brightly visible warning notice will contain a specific notation as to the violation concerning the vehicle. The warning notice will also notify the owner of the vehicle of the date that the vehicle

must be removed from the roadway. If the vehicle is not removed from the roadway by the listed date, additional notifications will be sent to the vehicle owner, and ultimately the vehicle will be towed by a State Salvor.

Private property owners may also contact the Traffic Enforcement Unit for processing abandoned vehicles that remain on the property without the owners consent. The property owner must send specific notices to the vehicle owner prior to the vehicle being removed at the direction of the Police Department. Any member of the Traffic Enforcement Unit can assist a property owner with the process that must be followed and provide paperwork that will assist with the removal of the vehicle.

During the 2010 year, the Traffic Enforcement Unit processed one hundred ninety-two (192) vehicles through the abandoned vehicle system.

DUI ENFORCEMENT:

The Spring Township Police Department has always taken an aggressive approach to DUI enforcement. The Department conducts DUI through a program funded by a state grant through the District Attorney's Office. The roving patrol allows an Officer to work a four-hour shift on Friday or Saturday night between 11:00 p.m. and 3:00 a.m. to solely seek out drunk drivers.

The Department and the Traffic Enforcement Unit also participates in a grant funded program targeting aggressive driving. The "Smooth Operator" program targets roadways that have a high rate of repeat violations and accident occurrences related to aggressive driving violations such as speeding, tailgating and reckless driving. The Department has partnered with the Pennsylvania State Police and conducted several joint enforcement details during 2010. Additionally, the Traffic Enforcement Unit received additional grant funding through the Department of Transportation to promote the use of seat belts within the Township.

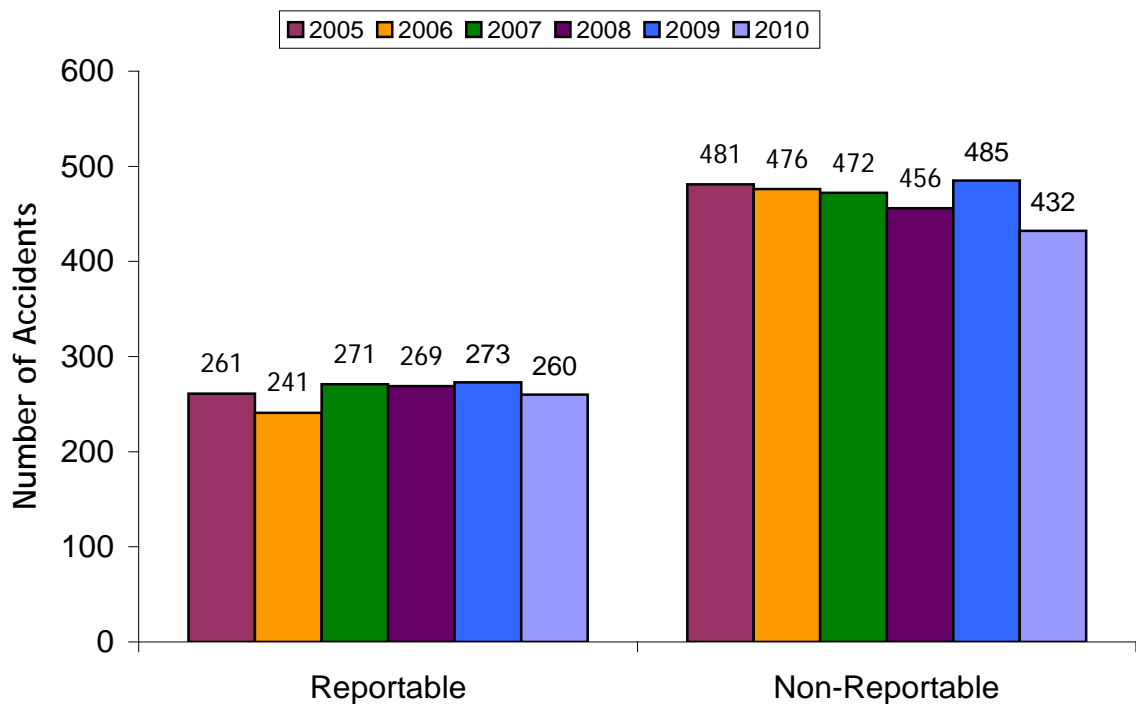

MOTOR CARRIER SAFETY ASSISTANCE PROGRAM (MCSAP):

The goal of the MCSAP is to reduce Commercial Motor Vehicle (CMV)-involved crashes, fatalities, and injuries through consistent, uniform, and effective CMV safety programs. The MCSAP safety programs increase the likelihood that safety defects, driver deficiencies, and unsafe motor carrier practices are detected and corrected before they become contributing factors to crashes.

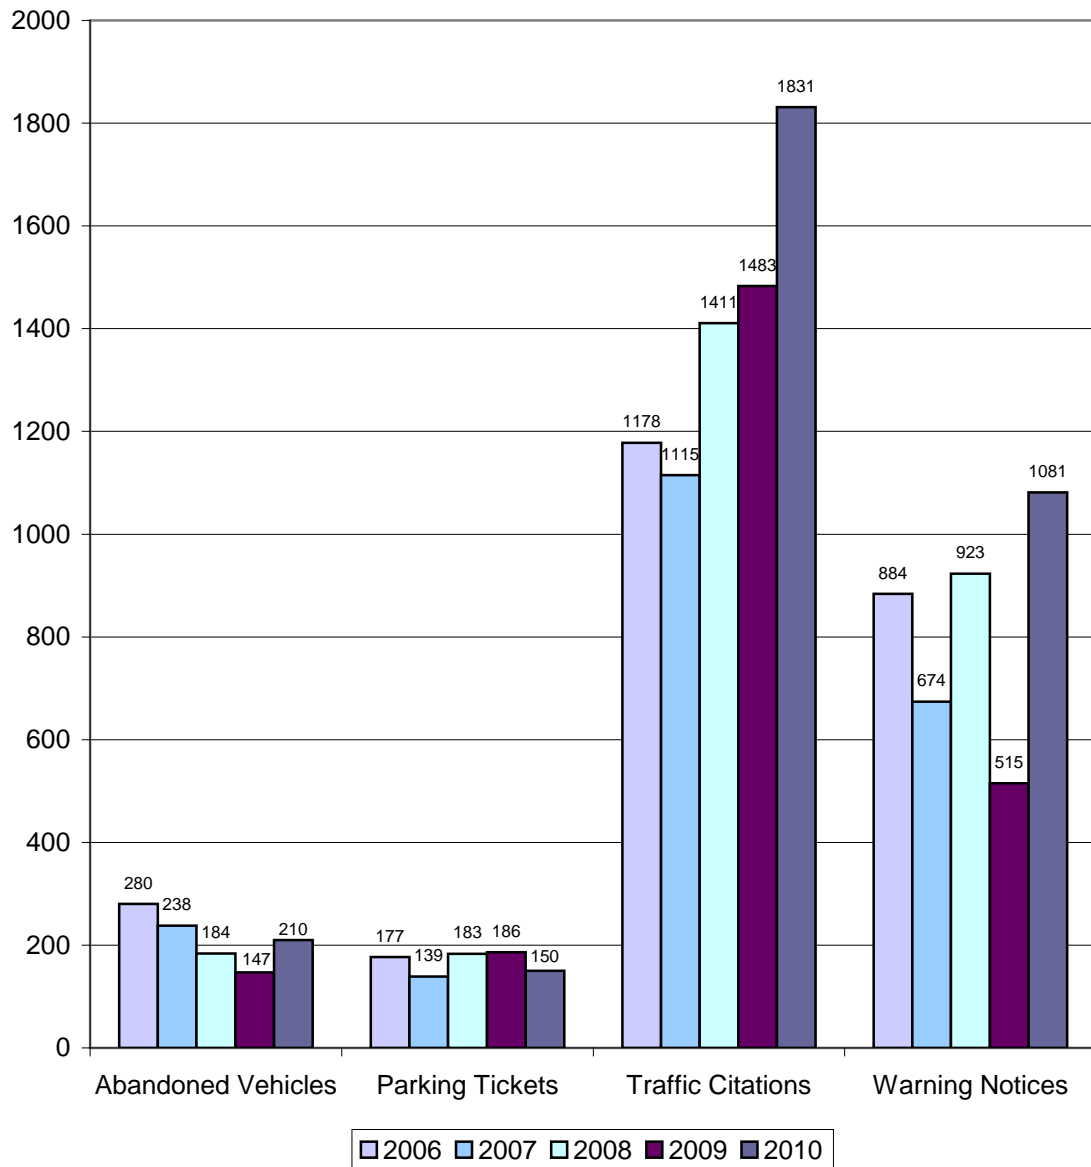

The Unit is also cooperating with other Departments in Berks County in an effort to increase the safety on the roads involving commercial motor vehicles. The collaborative effort involves monthly safety inspection details. These details include weighing and inspecting trucks and their operators for violations of the Federal Motor Carrier Safety Regulations. Every month a department will host the event and the assisting departments will send officers to the host jurisdiction for the inspection and weigh detail.

ACCIDENTS:

2005 - 2010 ACCIDENT SUMMARY

2006 - 2010 TRAFFIC ACTIVITIES

In 2010 there was a marked increase in the number of traffic citations issued. The number of Police Warning Notices doubled from 2009 to 2010. This is in great part because of the aggressive nature and focus placed on traffic enforcement, particularly by the three member unit.

PERSONNEL

NEW OFFICERS:

Gaspar, a one year old Belgium Malinois, is the newest addition to the Township of Spring Police Department. Gaspar was purchased from Progressive K-9 Academy in Walnutport, Pennsylvania. Officer Charles Miller is the handler that is assigned to work with K-9 Gaspar.

Gaspar was trained under the direction of Progressive K-9. Officer Miller and Police K-9 Gaspar were then certified through the National Police Canine Association. K-9 Gaspar is certified to detect a wide variety of illegal narcotics.

Gaspar and K-9 Officer Charles Miller join Dzeus and K-9 Officer Eric Goss to form the Township of Spring Police Department K-9 Unit.

AWARDS & COMMENDATIONS:

In the beginning of 2010 the Police Officers of the Township of Spring voted to establish a departmental awards committee. The members of the committee, Lt. Joseph Shivers, Sgt. Todd Peterson, Officer Timothy Katzaman and Detective Stephen Brock, were assigned to the committee. The committee met at the beginning of 2011 and the following awards were presented to these nominees.

Police Officer of the Year - Officer Matthew Keiser

Life Saving Award - Sergeant Edward Makosch

Meritorious Service Award - Officer Timothy Katzaman, Detective Stephen Brock

Honorable Service Award - Detective Dennis Riegel, Officer Louis Fronina, Sergeant Edward Makosch, Officer Charles Miller, Officer Eric Goss (2)

Written Commendations: Officer Cory Huntsinger, Officer Timothy Katzaman, Officer Jarrod Schappell, Sergeant Todd Peterson

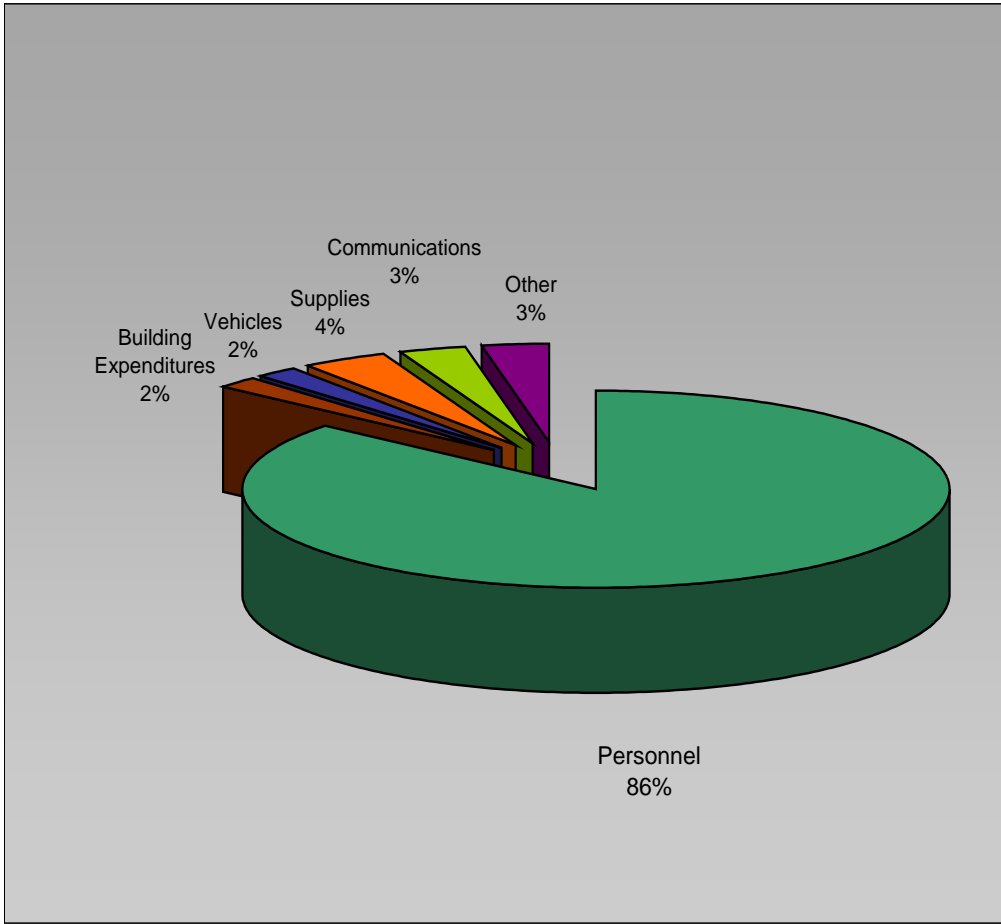

In addition to Police Officers being recognized, the department awards committee has established a Citizen Commendation Award. This award is presented to citizens who have assisted the Police Department and their fellow citizens in a manner which deserves special recognition. Citizen Commendation Awards were presented to Sharon Brunner, Nathan Cruz, Tom McDevitt, and Lori Fegley.

FINANCE

BUDGET:

In 2010 the Township of Spring Police Department expenditures were budgeted at \$4,192,808. The department ended the calendar year expending 98% of this allotment.

The \$4,192,808 figure represents 31.53% of the \$13,223,110 Township General Fund Operating Budget. The Police Department was allotted 31 full-time officers for the calendar year of 2010. The annual cost per officer is calculated to be \$135,251.87.

GRANT MANAGEMENT:

Although the availability of grant funds became increasingly hard to find due to the downturn in the nationwide economy, the following grants were signed, awarded and/or funds received during 2010:

Police Department:

- \$9,9000** Re-imbursements for overtime enforcement through North Central Highway Safety Network.

- \$20,000** K-9 program through the Department of Community and Economic Development.

- \$90,000** In-car video camera equipment through the COPS program.

- \$6,609.44** Re-imbursements for overtime enforcement through the Pennsylvania Liquor Control Board.

Fire Department:

\$11,968.95 Through the Office of the State Fire Commissioner.

The cumulative totals for grant administration "to-date" are as follows:

To-Date Pending	\$ 264,467.00
To-Date Funded Total	\$ 1,525,158.57
To-Date Statistics	95 Proposals Submitted
	64 Funded (64 %)
	6 Pending (6 %)
	28 Denied (30 %)
